

Quilting Skills Contest

Skill Level 5

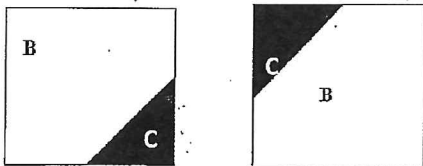

Bowtie Quilt Block

A=3" square, medium to dark fabric

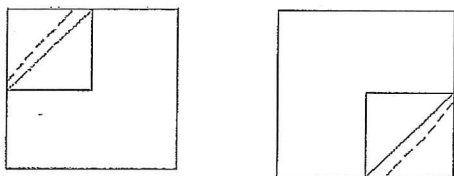

B=3" square, light fabric

C=1 1/2" square, medium to dark fabric (same as A)

Cut two of each size square. Place one of the square C's on the lower right corner of square B, right sides together. Place the other square C on the upper left hand corner of the remaining square B, right sides together. These small squares, when sewn to B will make the center knot of the Bow Tie.

Mark a line beginning at the right hand corner diagonally across the center of square C. Stitch across the line on this mark. Trim seam to 1/4", flip and press.

Stitch along solid diagonal line, trim along dotted diagonal line.

Stitch both completed square B's to triangle A's. Flip so that they form a bow tie design and stitch.
