This is a terrific fundraiser for Deschutes County 4-H Horse Program....Every Club needs to take some shifts. Contact Kathy Russell to sign up at: 541-419-8925

No Worries! Answers to Concerns About Staffing

Many of you have asked about a recent position opening, advertised only with-
in current county employees.

1. Candi is not planning to leave any time soon—this is not a replacement of her job.
2. We received only a portion of back fill dollars from the state to help backfill Todd's position; my hope is to combine those dollars with county dollars to provide a bit more 4-H staff allotment to help get it all done, this will be essentially a program assistant position providing some leadership to program as well as administrative duties.
3. We expect to interview 2 people for this position in the coming weeks
4. Kim's job has been moved from just under half time to 3/4 time.
5. Once everything shakes out, we'll share new roles, timeline, and such.
6. Any questions, as always, don't hesitate to call Candi

The great hope of society is individual character. *William Ellery Channing*

**FTC Robotics Club
On the Road this week...**

Do you remember the basketball-shooting robot showcased at the 2012 County Fair? The team that built it is a new 4-H Club, "Team Automata." This new club was invited to compete in a very prestigious international tournament in Silicon Valley, CA. This year's competition is shooting frisbees and climbing a large metal structure, and Team Automata is ready with a strong robot and strategy. Many world-champion teams come from Silicon Valley and we're honored to have our 4-H club participate. Watch the tournament live on the internet and support team #3995.

The Silicon Valley tournament is Friday and Saturday, April 6th & 7th. Links for live streaming and live match results will be published just prior to the event: <http://www.firstsv.org/> and <http://www.justin.tv/firstteam604>
